

Help Us Say *yes* to Innovation

Think of the Upper Dublin Education Foundation as a catalyst that ignites educational innovation. Our grant program inspires educators across the district to dream up unforgettable learning opportunities for our students, and we provide the resources to bring those ideas to life.

But the impact doesn't stop there. After a thorough evaluation of these funded programs, school administrators gain valuable insights. If successful, these piloted ideas are often replicated in other classrooms throughout the district.

This fall, **we've seen an increase of more than 50% in educator grant requests** compared to last year. We're excited to embrace this wave of innovation but **we need your support** in order to **fund every promising initiative**, transforming our students' education. Please join us in helping to shape the future of education at Upper Dublin.

Here are just some of the recent impactful projects we've funded:

- **Whisper Phones** for 1st graders, boosting early literacy
- **Vox Talking Books** for engaging early reading experiences (*pictured*)
- **Ukuleles** for elementary school music education
- **Enhanced Planetarium Programs** for immersive, cross-curricular learning
- **UDHS Biology Sensor Library** for real-world lab experiences (*pictured*)
- **STEAM & Sensory Activities** for Unified Arts
- **Using Puppeteering** to develop singing skills (*pictured*)
- **Laser Cutter & Engraver** for project based learning in STEM business classes
- **ThingLink Subscription** to enhance interactive visual content creation for teachers and students
- **UDHS Live Streaming Upgrades** to increase student involvement

Your gift to the Upper Dublin Education Foundation makes a difference.

Use the enclosed envelope, donate at udefoundation.org or scan the QR code. **Every gift counts.** Thank you!
